

# BOOKMAKER

## STEP BY STEP GUIDE FOR PAYBIS

### 1) CREATE YOUR PAYBIS ACCOUNT

Haven't created an account at Paybis yet? No need to worry, it's couldn't be easier.

Just head to <https://paybis.com/>, hit the **Log In/Sign Up** button and press **Register**.

Then, fill out your details and hit the **Sign Up** button.

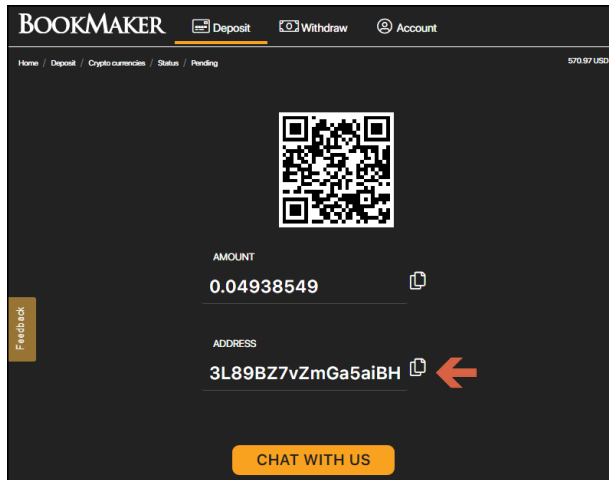

### 2) BUY BITCOIN AND SEND TO BOOKMAKER

On the next screen you'll immediately be taken to the **Buy Bitcoin** page.

1. On the left of the screen, choose the **method** you want to use for buying bitcoin
2. On the right of the screen, choose the **type of cryptocurrency** you want to buy
3. In the center of the screen, you can choose the **currency (USD / EUR / GBP)**, enter the amount and hit **START TRANSACTION**.

The screenshot shows the 'Buy Bitcoin with Credit Card' page on Paybis. The interface is split into three columns: 'You Spend', 'Buy Bitcoin with Credit Card', and 'You Receive'.  
- **You Spend:** Lists payment methods. 'Credit Card' is selected under 'Online currency'.  
- **Buy Bitcoin with Credit Card:** Shows the transaction details. 'USD' is selected. The amount to deposit is '500.00 USD'. The amount to receive is '449.62 USD' (0.04502864 BTC). A 'START TRANSACTION' button is highlighted.  
- **You Receive:** Lists cryptocurrencies. 'Bitcoin (BTC)' is selected.  
At the bottom, there are four 'Pay' buttons for \$1000, \$5000, \$10000, and \$20000, each with a 'BUY' button and the corresponding Bitcoin amount to be received.

4. Next, go to your **BookMaker account** to generate a Bitcoin address (this is the address you will be sending the funds to).
5. To do this, log in to BookMaker, open the Cashier, select **Deposit**, then **Bitcoin**. Enter the amount and hit **GET ADDRESS**.
6. The address will be generated and you can then copy it using the copy icon (similar to two sheets of paper) to the right of the address. **Please do NOT type the address by hand. Always use the copy-paste feature!**

Once you have the address copied, go back to the Paybis page and:

1. Paste the address into the **Bitcoin address** field.
2. On this same page, enter your **personal info**.
3. Upload photos of your ID.

A screenshot of the Paybis verification form. The form is divided into several sections. The first section, labeled 'Your Bitcoin (BTC) address' with a red circle '1', contains a field for 'Your Bitcoin Wallet'. Below this is a message: 'Credit card verification level 2 is required! To make this exchange you will need to complete verification.' The second section, labeled 'Personal Information' with a red circle '2', is split into two columns. The left column contains fields for 'First name \*', 'Last name \*', 'Birth Date \*' (with a format 'mm/dd/yyyy' and a question mark), and 'Phone Number \*' (with a question mark). The right column contains 'Address Verification' with a dropdown for 'UNITED STATES', and fields for 'City \*', 'Street \*', 'Street continued', and 'Postal/ZIP code \*'. Below these are dropdowns for 'DOCUMENT TYPE...' and 'STATE...'. The third section, labeled 'Government ID' with a red circle '3', contains two fields: 'Government ID \*' and 'Backside of ID Document', each with a file upload button and a search icon.

4. Once you've entered all info, hit **CONTINUE** at the bottom.

5. *At this point a verification process will begin. This takes less than 30 minutes. When it is done, you'll receive an email.*
6. On the next screen, hit **CONTINUE TO CHECKOUT**.
7. Fill out the card info, billing address, reconfirm a few last personal details and hit **PAY NOW**.

Your deposit will then be posted to the blockchain and within **10-30 minutes** it should be confirmed.

You can check the status on any transaction by going to the blockchain website and entering your deposit's address: <https://www.blockchain.com/explorer>.
